

Ahmed Ismail Metwally Ibrahim

BIM Consultant | Certified BIM Manager | ISO 19650 Information Management Specialist
+966 580 604 938 | Eng.aim98@gmail.com | [linkedin.com/in/ahmed-ismail-840210168](https://www.linkedin.com/in/ahmed-ismail-840210168) | Saudi Arabia | SCE No. 765967

PROFESSIONAL SUMMARY

Civil Engineer and BIM Consultant with 5+ years of progressive experience across engineering design, municipal infrastructure, and large-scale government digital delivery in Saudi Arabia. Currently providing client-side BIM governance on a 450M SAR healthcare and infrastructure portfolio for Kidana Development Company (Hajj and Umrah Authority), including the successful fast-track delivery of a 400-bed emergency hospital for Hajj 1447 — completed in 6 months under concurrent design-construction and achieving 94% CBAHI accreditation. Specialist in ISO 19650 information management, BIM Execution Plan compliance, multidisciplinary clash coordination, CDE administration, and contractor BIM governance. Holds 1,000+ hours of structured BIM training across Niqat Global (Autodesk ATC), KAITECH (95.5%), and Columbia University. Registered member of the Saudi Council of Engineers (Civil Engineering). Targeting senior BIM Consultant and Digital Delivery roles with international consultancies operating in KSA and the GCC.

CORE COMPETENCIES

ISO 19650 Information Management	BIM Execution Plan (BEP) Review & Enforcement	Multidisciplinary BIM Coordination
CDE Administration & Digital Workflows	Clash Detection & Model Validation (Navisworks)	4D Construction Simulation
5D Cost & Quantity Management		Fast-Track Design-Build BIM Delivery
Government Healthcare Projects (KSA)	Structural & Infrastructure Engineering	Revit Primavera P6

PROFESSIONAL EXPERIENCE

SAUDCONSULT – Kidana Development Company (Hajj & Umrah Authority)

Dec 2024 – Present

BIM Consultant | Client-Side Digital Delivery

- Key Projects:** Mina Emergency Hospital (Phase 2) · Mina Infrastructure Networks · 60 Two-Story Toilet Complexes (Mina) · 2 Two-Story Toilet Complexes (Arafat)
- Delivered BIM coordination and digital QA/QC on the fast-track design-build of a 400-bed emergency hospital (18,000m²) for Hajj 1447 — a nationally critical facility completed in 6 months under concurrent design-construction, achieving 94% CBAHI healthcare accreditation score on handover.
 - Providing client-side BIM governance across a 450M SAR government healthcare and infrastructure portfolio comprising 4 concurrent projects in Mina and Arafat.
 - Overseeing BIM delivery across 4 contractor teams (20+ engineers), reviewing all model submissions and enforcing ISO 19650 compliance at every information exchange gate.
 - Reviewed and formally approved 5 contractor BIM Execution Plans across multiple revision cycles, enforcing full alignment with Employer Information Requirements (EIR).
 - Identified 10,000+ model clashes across multidisciplinary coordination reviews using Navisworks, managing structured resolution workflow across structural, architectural, and MEP disciplines.
 - Administered CDE environment on Aconex, enforcing naming conventions, metadata compliance, and structured digital submission protocols across all project disciplines.
 - Delivered ISO 19650 and CDE compliance training to 4–5 contractor BIM staff, improving submission quality and reducing revision cycles.

- Issued formal Non-Conformance Reports (NCRs) and escalated contractor BIM non-compliance to Project Manager level, maintaining a full audit trail through documented correspondence and weekly PMC-contractor coordination meetings — enforcing zero-compromise standards under extreme program pressure.

LON Architecture Engineering Consulting Office

Jan 2021 – Dec 2024

Civil & Structural Engineer | Municipal Technical Support

Key Projects: Farasan Governorate Municipality Infrastructure · Residential & Commercial Buildings · Government Bid Programs

- Provided resident technical support to Farasan Governorate Municipality (Red Sea island governorate) across road infrastructure, landscape, utilities, and government building maintenance projects, including supervision of a 12M SAR road paving and infrastructure program.
- Designed and supervised construction of 100+ residential villas and buildings, covering architectural layouts, structural design, exterior facades, and full site supervision from permit to handover.
- Managed government bid submissions via Etimad platform, preparing technical and commercial packages for municipal infrastructure competitions.
- Produced full project documentation sets including architectural plans, structural drawings, and quantity surveys using Revit and AutoCAD.
- Liaised with government authorities to obtain construction licenses and ensure regulatory compliance across all active projects.

Freelance Practice

May 2018 – Sep 2023

Structural Engineer, Architectural Designer & Visualization Specialist

Delivered residential design, structural drawings, and 3D rendered visualization services to private clients, alongside part-time bid support — including cost estimation, quantity surveying, and Etimad submissions — for engineering firms across the Jizan region. Produced presentation boards and construction drawings using Revit, Lumion, SketchUp, Photoshop, and Illustrator.

EDUCATION

Bachelor of Science – Civil Engineering

Jazan University, Kingdom of Saudi Arabia

Graduated May 2021 | GPA: 4.37 / 5.00 | Second Class Honours

PROFESSIONAL CREDENTIALS & CERTIFICATIONS

Professional Accreditation

- Saudi Council of Engineers (SCE) — Professional Member, Civil Engineering | Membership No. 765967 | Valid to June 2027

BIM Specialist Credentials — Nqat Global (Autodesk Authorized Training Center)

- Certified BIM Manager | ID: 137928692 | Mar 2025
- Certified BIM Coordinator – Buildings | ID: 165682970 | Nov 2025
- Certified BIM Planner | ID: 169851025 | Dec 2025
- Certified BIM Quantifier | ID: 169851419 | Dec 2025
- Certified BIM Modeler – Structural | ID: 159768118 | Sep 2025
- Certified BIM Documenter – Structural | ID: 159768433 | Sep 2025
- BIM Diploma – Revit 2025 (600 hours) | Nov 2025
- BIM Management with Revit 2025 (80 hours) | Jan 2025

Structured BIM Program

- KAITECH Structural BIM Track — Score: 95.5% | 300 hours | 16 modules including ACC, Dynamo, 4D/5D/6D/7D BIM, Navisworks, ISO 19650 | Graduation Project (Team Leader) | Aug 2023 – Feb 2024 | ID: R09-B-S-69969
- Structural BIM Diploma — Revit 2021 | KAITECH (Autodesk Authorized Academic Partner) | 101 hours | Jun 2026 | ID: EM304574098850765736532

Professional Development

- Construction Project Management — Columbia University via Coursera | Apr 2024
- Construction Cost Estimating & Cost Control — Columbia University via Coursera | May 2024
- Primavera P6 Project Planning & Scheduling Masterclass — Udemy | Sep 2024
- Navisworks Advanced — LinkedIn Learning | Feb 2025
- BIM Manager: Managing Revit — LinkedIn Learning | Jan 2025
- Creating a BIM Execution Plan — LinkedIn Learning | Jan 2025
- Training of Trainers (TOT) — 60 hours, Ebehar Training Center (TVTC Accredited) | Aug 2020
- Ready Building Inspection — Saudi Real Estate Institute | Feb 2024

TECHNICAL SKILLS & SOFTWARE

BIM & Coordination: Autodesk Revit · Autodesk Navisworks (Clash Detection & 4D) · Autodesk Construction Cloud (ACC) · Solibri · CDE · Dynamo for Revit

4D/5D Planning: Primavera P6 · SYNCHRO 4D Pro · BIM 4D/5D/6D/7D Workflows

Civil & Structural: AutoCAD · AutoCAD Structural Detailing · SAFE · ETABS · ArcGIS

Visualization & Design: Lumion · SketchUp · Enscape · Adobe Photoshop · Adobe Illustrator

Standards & Governance: ISO 19650 Parts 1 & 2 · BEP Development & Review · EIR Compliance · CDE Administration

Project & Commercial: Cost Estimation · Quantity Surveying · Etimad Platform · Government Bid Management
